Quotes & Reviews

“ Continuing to bring the thunder from Down Under on his new 5-track set MR. JONES, Australian bassist, songwriter arranger and performer Wayne Jones, a renowned session musician who launched his solo career in 2006, keeps that perfect balance between tunes that are lush, melodic and sophisticated and others that showcase his freewheeling and wildly energetic ways. Working with top genre stars like Rick Braun and Grammy-nominated keyboardist Philippe Saisse, who is featured on “5 To 6,” Jones creates a dynamic array of moods, from the bright and brassy new single “A Day at the Beach” to the strutting and funky “Get Up” and light and breezy “Sweet Melody”. Another highlight is Jones’ buoyant Latin excursion “The World Keeps Turning.” You’ll enjoy experiencing the wild, wonderful world of MR. JONES!

“ MR.JONES – WAYNE JONES ”

Sophisticated (adjective): Developed to a high degree of complexity -New Oxford American Dictionary

‘Mr. Jones’ takes the thread to its natural conclusion. Wayne Jones delivers a perfectly executed and impeccably polished sound, where each and every note can be savoured. It defies logic that the musicianship bar could be raised any higher, yet here it is. Five new stunning tracks, intricately constructed, perfectly played and ... well ... even more sophisticated! As always, Jones can funk it up with the best of them yet at other times it’s difficult to fathom that the licks being played are coming out of a bass, such is the fluidity. [Read More](#) ►

“ THIS IS THE ONE! ”

After two impressive releases over the past five years, premier Australian bassist/composer Wayne Jones’ brand new album, CLOSED FOR THE HOLIDAYS has just arrived, and it features his best work yet. Using a food analogy, the six tracks on this new CD are like a gourmet recipe... sophisticated but not stuffy, incredibly tasty, creating so much contentment going down that you’ll absolutely want to prepare it time and time again. You’d be hard-pressed to name a favorite tune, as every one of his originals is incredibly delicious. Mr. Jones really wanted to expand his sound on this project, so he invited trumpeter Rick Braun and sax-man Mike MacArthur to guest. Excellent choices! Wayne’s excited about the possibilities involved in taking CLOSED FOR THE HOLIDAYS to the World, and says, “I really have a great feeling about this one. I feel like I have arrived.” Indeed you have, mate. This is the one!

“ SMOOTH JAZZ EUROPE

A few weeks ago, I received the new album by Australia's bass player Wayne Jones. To broaden his sound he invited two special guests to this project, Mike MacArthur on sax, and Rick Braun on trumpet. And again Wayne proves that he really can pull it off, he knows how to make an album that is considered his best to this date. [Read More ▶](#)

“ IMMERSE YOURSELF IN LIFE'S MORE PLEASURABLE PURSUITS

There's a reason why you don't hear so many solo albums by bass players ... and no ... I'm not about to launch into an onslaught of bass player jokes. The real reason, and any musician will know this ... is because only the very best bass players can be technically skilled and creatively inclined enough to pull it off.

“ AUSTRALIAN JAZZ ARTIST WAYNE JONES WALKS ON “SATURDAY STREET” WITH SPINE-TINGLING BASS LINES

It is paved with spiky, spine-tingling bass lines, the Saturday Street that Australian jazz artist Wayne Jones walks on. Saturday Street, Jones' latest album, is a glistening summer soundtrack that bathes in the pulsating energy of city life, from sun-drenched strolling to a midnight slow jam at a club. On the title track Jones' bass feels like a living entity; it throbs with vigour and swagger while jumpy piano adds further electricity.
